Importance of AAPI Voter Engagement

[HOW TO VOTE](#)[WHY AAPI VOTERS](#)[NEWS & RESEARCH](#)[EVENTS & PROGRAMS](#)[ABOUT & ENGAGE](#)[DONATE](#)

“Nearly half of Asian American and Pacific Islander registered voters identify as independent or undecided with respect to their party identification, pointing to the possibility that many remain open to persuasion and outreach in future elections.”

“They vote for candidates who support and promote progress on issues that matter to their families and communities.”

Top 3 Policy Priorities for Asian Americans:

CA, NV, NY, VA

Approach

When conducting surveys and studies, humans are transformed into and compiled as numbers with the **emotional context being lost on the way**. We hope to reconnect big data with individuals and stress the importance of civic engagement as the policies at stake affect real people.

We also seek to shed light on the breadth of AAPI issues as well as delve into the complexities of an individual topic by highlighting individual stories.

Education: Disparities among Ethnic Groups

Education: Connection with Poverty

AAPI Ethnic Group Percent of Those with Less Than a High School Education and those Living in Poverty

STEP INTO LONG BEACH:

Exposing how Cambodian American youth are under resourced, over policed and fighting back for their wellness

“While the majority of the survey respondents prioritized “being able to go to college as important,” many of the youth and their parents were unaware of the specifics regarding pathways towards and accessing higher education. Additionally, there are high dropout rates for Asian American high school students in Long Beach, yet these are often overlooked...”

Civic Engagement: Local, State, National

"[We] need to help parents understand the educational system, and help them to become advocates. Parents tend to be deferential to the school district."

— Michele Lew, Executive Director, Asian Americans for Community Involvement

"For many years, we had few staff who spoke Cambodian [in Philadelphia]. The Superintendent met with us in April 2010 at a community meeting, learned about issues affecting [the] community, and began to hire bilingual staff. Then, we faced budget cuts, and most staff have been laid off."

— Rong Sorn, Executive Director, Cambodian Association of Greater Philadelphia

"Parents go to CBOs first, not schools. With [CBO and school] partnerships, we need standard policies on what that partnership means, [because] schools have historically done a bad job at defining partnerships, [including] what information we can access."

— Vu Le, Executive Director, Vietnamese Friendship Association

Health: The Affordable Care Act

\$11 Billion towards funding existing health centers and creating 1,100 new ones, allowing for the hiring of more language concordant providers and interpreters.

“I thought I was destined to a life of expensive health bills to treat my liver condition and **reliant on my son to read every healthcare document** we receive and accompany me to every doctor’s visit.”

~Esther Ji

“With the help of Hanul **Family Services**, a Korean-speaking, in-person assister, helped Esther find an **affordable** option that was accepted by her existing primary doctor, expanded **access** to the specialists she needed, and walked Esther through to process of getting a **translator** for her doctor visits.”

Kalwis Lo was diagnosed with stage 3 Hodgkin’s disease months after graduating from **college**. As **working-class Chinese Americans**, **his parents** didn’t have much money but reached into their own savings to put him through medical testing and chemotherapy treatments.

“Having had cancer, I know that no one chooses to get sick. But now, thanks to the Affordable Care Act, you can **choose** to get health care.”

~Kalwis Lo

Immigration: Support for Reform

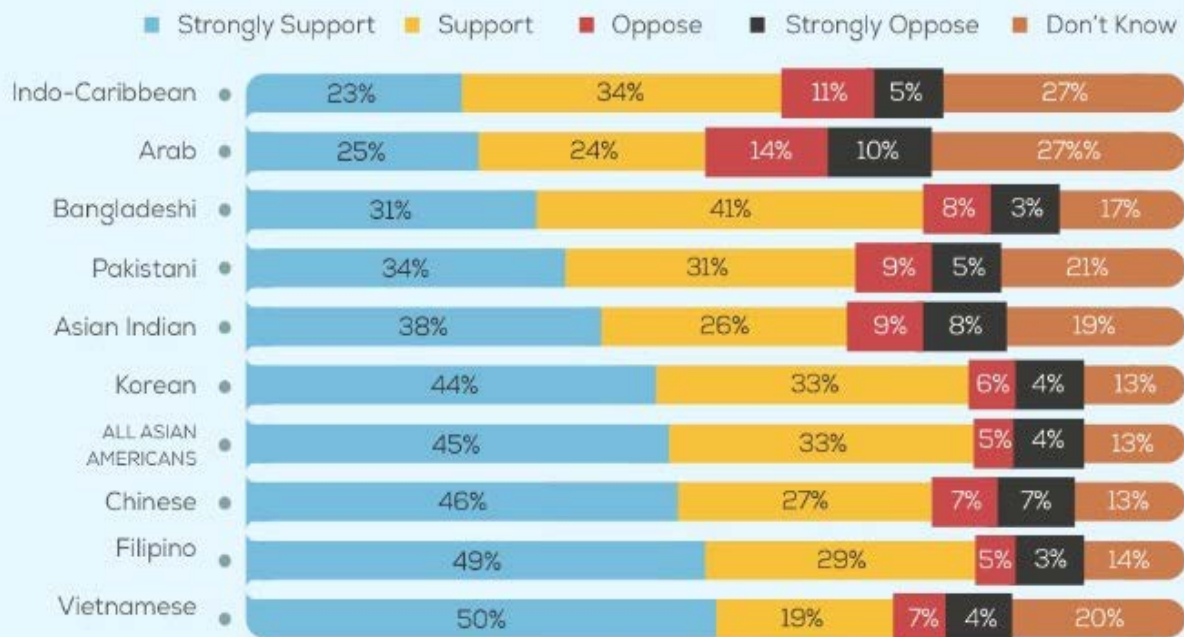

Fig. 15. Asian American Support for Comprehensive Immigration Reform

Immigration: DACA

Even with the number of those eligible considered, the application rates are significantly lower at **21%** whereas the Latinos stand at **77%**.

Table 1. Potentially Eligible DACA Population and Initial Application Rates by Select Regions, 2015

Country of Origin	Immediately Eligible (ages 15 to 30)	Initial Applications Accepted (by March 31, 2015)	Application Rate (%)
Asia			
South Korea	44,000	9,000	20
Philippines	20,000	5,000	23
India	17,000	3,000	20
Pakistan	6,000	2,000	28
Asia subtotal	87,000	18,000	21
Latin America			
Mexico	703,000	578,000	82
Guatemala	45,000	20,000	44
El Salvador	31,000	28,000	91
Honduras	23,000	19,000	81
Colombia	19,000	7,000	36
Peru	14,000	9,000	62
Ecuador	12,000	7,000	54
Brazil	12,000	7,000	63
Jamaica	10,000	4,000	38
Dominican Republic	9,000	3,000	34
Venezuela	8,000	3,000	40
Argentina	5,000	4,000	91
Latin America subtotal	892,000	689,000	77

Notes: Due to limited publicly available U.S. Citizenship and Immigration Services (USCIS) data, the regions include 12 Latin American and four Asian countries. The *Immediately Eligible* population includes unauthorized immigrants 15 years and older who met the age, year of arrival, continuous presence, and education requirements for the Deferred Action for Childhood Arrivals (DACA) program at its launch in August 2012. *Applications Accepted* includes the number of initial applications (so, not including renewal applications) accepted for processing by USCIS as of March 31, 2015. Totals may not add up due to rounding. Percentages are calculated on unrounded numbers and may not match those calculated based on the rounded numbers.

Sources: Migration Policy Institute (MPI) analysis of U.S. Census Bureau 2009-13 pooled American Community Survey (ACS) data, and data from the 2008 Survey of Income and Program Participants (SIPP) by Colin Hammar and James Bachmeier at Temple University and Jennifer Van Hook of The Pennsylvania State University, Population Research Institute; USCIS, "Number of I-821D, Consideration of Deferred Action for Childhood Arrivals by Fiscal Year, Quarter, Intake, Biometrics and Case Status: 2012-2015 (March 31)," available online.

“DACA has opened up so many opportunities for me—school, scholarships, and work. But it’s also brought my family a sense of certainty, which has had real effects on our daily lives. The fact that my mom doesn’t have to worry about me being deported. We breathe a little easier today because of DACA.”

~Ji In (Kit) Lee

“

A couple of months after I received DACA, my dad suffered from a heart attack. Because I got DACA, because I got a driver’s license and the ability to drive a car, I was able to care for my family while my dad was in the hospital recovering [...] DACA has helped me take care of them.

Recommendations

1. Targeted Strategic Research:

- Conduct disaggregated voting data research on policy issues priorities of the AAPI community with a specific focus on geography
 - Relevance in local, municipal, county, regional, and state levels elections
- Engage and persuade AAPI using data analysis on geographic and ethnicities' priorities on policy issues AND stories and shared experiences

2. Cease and Desist - Side-Lining AAPI:

- Recognize efforts highlighting diverse needs of AAPIs across and within various issues
- Partake in community and civic engagement campaigns that focus on AAPI action on a local, state, and national level

3. Vote in 2016 and use SHARED EXPERIENCES when persuading others
