Hours of instruction/week:

min. Ø 35 instructional hours

In grade 11 &12 total:

min. 140 instructional hours

The following subjects count toward the **Partial Qualification Q** at the GISW:
36 semester grades are required.

Required Subjects

German	(4 semester grades)
Mathematics	(4 semester grades)
One Foreign Language/Lang. of host country	(4 semester grades)
Natural Sciences	(min. 4 semester grades)
Field of Studies: Social Studies	(min. 4 semester grades)
of those in History	(min. 2 semester grades)
Artistic field of Study	(min. 3 semester grades)
Physical Education	(max. 3 semester grades)

In the **5 Exam Subjects** all **4 semester grades** will count!!!

In the Field of Study **Foreign Languages/ Natural Sciences** at least
14 semester grades will be counted.

When counting achievements in one subject, a minimum of **2 semesters** have to be counted.

Proof of Qualification

Area	Subjects	Max. Points
EI (Q)	<p>36 semester grades from all school work in the qualification subjects (incl. the 5 examination subjects) from semesters 11.1, 11.2, 12.1, and 12.2</p> <p> (max. 7 semester grades < 5 points, NO semester grade of 0 points) </p>	<p>600 points</p> $EI = \frac{36 \times 15}{36} \times 40$ <p>(min. 200 points)</p>
EII (A)	<p>The respective examination result of the 5 examinations is multiplied by four.</p> <p>(in at least 3 examination subjects, at least 5 points must be achieved as final result <u>and</u> the simple point total of the 5 Abitur examinations must add up to at least 25)</p> <p> </p>	<p>300 points</p> <p>(4 x 15 x 5)</p> <p>(min. 100 points)</p>
E	Total	<p>900 points</p> <p>(min. 300 points)</p>

The 5 Examination Subjects must cover the 3 Fields of Study.

The written Exams must cover 2 fields of study.

Examination Subjects - DIA

Students are required to have been enrolled in each written examination subject starting in 9th grade.

1. written exam subject: **German**
2. written exam subject: Mathematics or Advanced FL / host country language
3. written exam subject: Mathematics or Advanced FL / host country language
History or Social Studies or
Biology or Physics or Chemistry
- 4./ 5. oral exam subject: Student's choice, cannot be one of the written exam subjects and has to have been part of their studies since 10th grade. **One oral exam has to be taken in German.**

Foreign Languages can make up a max of 50%, where exams in a FL count as a whole and exams in a bilingual subject count half.

The **5th Exam** is a **Presentation Exam**.

Basics

Testing communicative competencies using a
controversial topic.

(i.e. Question or Hypothesis)

20 Minute Duration: 10 Minutes each for
media-supported presentation and
discussion

Student proves a **deep** understanding with
a **topic of his or her choice**.

Everything at its time...

At least eight weeks before the exam, the student provides **two** topics of his or her choice.

There and back again...

Four weeks before the exam, the student receives the topic that the examiner chose out of the provided options.

From now on, the examiner is not allowed to counsel or support the student.

Two days before the exam, the student turns in a short documentation of his or her presentation (max length two pages).

The short documentation is **NOT** graded.

Everything at its time...

Right BEFORE the exam, the presentation is saved by the school for the record!!!

New Guidelines of the DIA Exam Regulations „Klausuren“

In every subject **except** German, English, Math and 2. FL only **one** test (Klausur) needs to be written per semester.

BUT: 50% test (Klausur) and 50% participation remains!!!

As of **modern** Foreign Languages in Q1 (11th gr.), the test (Klausur) is replaced by testing the competencies through *Speaking* or *Listening Comprehension* or through *Listening-Viewing-Comprehension*.

CONCLUSION
